

VOC TESTING

Carpet Institute of Australia Environmental
Certification Scheme incorporating ISO 10580

All VOC testing is sent to our Chinese joint venture lab for testing.

Test Code: F26A (ISO)

Sample preparation:

- We require two specimens sized 50cm x 50cm (minimum) for the VOC testing.
- Sample packaging and storage is extremely important.
Best practice dictates that both specimens be stacked together, wrapped in aluminium foil and placed in an unprinted, airtight polyethylene or clear polyvinyl wrapping and sealed
- Each bag can contain only one sample, and all sample information should be labelled on the outside of the packaging, as it should not be opened again until it reaches the laboratory.
- When submitting the product, please attach this leaflet with the following information completed.

Company name	
Company address	
Contact person	
Contact person email	
Contact person phone number	
Name of your product
